

'Printed Garden'

with Jenny Peterson

Saturday May 11, 2024

10am to 2pm

\$105 or \$95 arc members

Contact arc via email for bookings or call Sharon 0409 436 268

Harvest your garden to make some art!! (or raid a friends garden). Does a certain plant hold a memory for you - or recall a flavour? Do certain plants remind you of someone's garden that you visit? This is a workshop suitable for all levels - No previous art experience is required.

Using plant specimens, we can make several prints in this workshop. If you can – prepare a few botanicals one or two weeks ahead of time by drying them between blotters or in the pages of a large book. This makes them flat and leathery – we don't want them too brittle (grasses, leaves, flowers and herbs work well). Plants are also provided and we can share what is brought along with the other class members.

All tools, coloured inks and A4 printing paper are supplied in the fee. You may bring a simple toolkit of scissors, cutting knife or scalpel, pointed tweezers, apron, notebook, pen. Please wear shoes that cover your toes. Tea and coffee are provided.
